About McLean County Geographic Information System (GIS) Consortium (McGIS):

McGIS is a cooperative effort of several local government agencies with the goal of providing better information and services while reducing duplication of effort. Through cooperative resource management McGIS is developing a consortium-wide geographic information system to better serve the public and to aid in many local government decision-making processes.

Consortium Members: City of Bloomington, City of Bloomington Township Assessor, Emergency Telephone System Board (9-1-1), Town of Normal, McLean County, McLean County Regional Planning Commission.
